EDUCATION

Bachelor of Engineering in Computer Science, *GLA University, Mathura, CPI: 8.02*	June 2025
Intermediate, Prasad Public School, Mathura, 88.6%	May 2021
High School, Prasad Public School, Mathura, 91.6%	May 2019

INTERNSHIP / TRAINING EXPERIENCE

JOB ORIENTED VALUE ADDED COURSE,GLA UNIVERSITY,MATHURA

Trainee   June 2023 - Aug 2023

During my internship at Coding Blocks from June 2023 to August 2023 in Mathura, I gained valuable experience in the education sector, specializing in guiding newcomers in the tech industry. My responsibilities included acquiring knowledge in data structures and competitive programming while completing over 250 coding questions on the Coding Blocks platform. For further information, please feel free to contact Monu Kumar.

PROJECTS

E-commerce DashBoard | AmatShop   March 2024
- An e-commerce analytics dashboard using **React.js**, **React Bootstrap**, **HTML**, and **CSS**.
- Enabled online retailers to analyze sales performance and customer behavior, facilitating targeted strategies through interactive data representation using **chart libraries**.
- Utilized **MongoDB** for robust database management, ensuring data integrity and scalability.
- Key features included dynamic customer segmentation, product analysis, and cart abandonment recovery, all secured with **JWT authentication.**

Admin Dashboard   Feb 2024
- An Admin dashboard project using **Next.js**, emphasizing seamless user interaction and data presentation.
- Leveraged **NextAuth** for secure authentication, ensuring protected access to user and product details.
- Utilized **MongoDB** for robust data storage, implementing **bcrypt** for password encryption to enhance security.
- Integrated **React DOM** for efficient UI manipulation and **React Icons** for improved aesthetics, highlighting the significance of Next.js in exploring secure authentication, data management, and UI design in web development.

Project Hub   Dec 2023
- Built a community platform enabling users to store project profiles and display professional status.
- Utilized **HTML**, **CSS**, and **JavaScript** for intuitive frontend development.
- Integrated **Firebase** for storage, real-time data management, and authentication.

SKILLS

Technical	Professional
Java, Python, JavaScript, AWS	Effective Communication Skills
ReactJs, ExpressJs, SQL, Html,	Ability to identify and solve problems
MongoDB, Git, GitHub, NextJs	Adaptability

EXTRA/CO-CURRICULAR ACTIVITIES

- Solved 300+ problems across LeetCode, HackerRank, CodeChef, and Codeforces.
- Secured a top-five position in the Techathon organized by the Coding Club at GLA University.
- Organize our own Bus Service named Project IGI for students to reach their respective exam centre during NPTEL exams.

DECLARATION

I hereby declare that all the above-mentioned information is true and correct to the best of my knowledge.
